Unit Title: First Aid Part 2

Unit #: 2

Course or Grade Level: Grade 12

Length of Time: 12 days

Pacing

Day:
 1: Sudden illness
 2: environmental emergencies
 3-4: soft tissue injuries
 5-6: Injuries to muscles bones and joints
 7: Special Situations and circumstances
 8: Asthma & Anaphylaxis
 9: Injury prevention and emergency preparedness
 10-12: Assessment

Essential Questions

- How can you tell if a bone is broken?
- What should you do if someone is having an asthma attack?

Content

- Sudden Illness- shock, fainting, seizures, stroke, diabetic emergencies, allergic reactions, poisoning
- Environmental emergencies-heat related illness, cold-related emergencies, bites and stings, animal bites, poisonous plants, lightening
- Soft tissue injuries-
 - wounds (closed and open)
 - burns (chemical, heat, electrical, radiation)
 - severed body parts
 - embedded objects
 - nose, mouth, lip, tooth and chest injuries
- Injuries to muscles bones and joints- fractures, sprains and strains, spinal injuries, concussions
- Special situations-
- Asthma
- Anaphylaxis
- Injury prevention

Skills

- Identify the signals of shock and describe how to minimize its effects.
- Describe how to prioritize care for injuries and sudden illness.
- Demonstrate how to control bleeding.
- Identify the signals of head, neck and back injuries.
- Determine when an injury needs to be splinted.
- Recognize the signals of an asthma attack.
- List the procedures for burn care.
- Compare sprains and strains.
- Classify various environmental dangers

Assessments

- Formative
- Skill test (physical and written)
 - Cooperative activities
 - Graphic organizers
 - Class discussion/participation
 - Teacher observation
 - Worksheets, skill sheets
 - Quizzes
